Director's Report

Dear Health Benefit and Branch Representatives:

Don't forget to secure your spot at the upcoming Health Benefit Representative (HBR) Seminar.

We are excited to host another valuable event where you can participate in workshops, connect with Plan partnerships, and identify how your job as a branch representative aligns with our mission and growth.

For 50 years or since 1975, we have brought Health Benefit Representatives from all over the United States together giving them the opportunity to gain important insights, and I fully believe that this year will take second to none.

But wait there is more. Not only is it a 50-year milestone for the HBR seminar, but we are also excited to celebrate 75-years of service as an independent health benefit plan, serving letter carriers across the nation.

Please review the included information to learn more and make your plans. I welcome you and look forward to seeing you there.

Important - Due to Open Season dates opening soon after the seminar, all Health Benefit Plan toolkit information will be provided in-person at the event. Please note, this will take the place of a future toolkit mailing.

Sunscreen

Sunscreen is extremely important for skin protection and health. Here are some key reasons:

Prevents Sunburn: Regular use of sunscreen helps prevent sunburn, which can be painful and damaging to the skin.

Reduces Skin Cancer Risk: It significantly decreases the risk of skin cancers and precancers.

Prevents Premature Aging: Sunscreen helps protect against premature aging, including wrinkles and discoloration.

Daily Use Recommended: Everyone over 6 months of age should apply sunscreen daily, regardless of the weather.

Protection from UV Rays: It shields the skin from harmful ultra violet radiation, which can lead to serious skin issues.

Incorporating sunscreen into your daily routine is a simple yet effective way to maintain skin health. For more information go to: <https://www.hopkinsmedicine.org/health/wellness-and-prevention/sunscreen-and-your-morning-routine>
